

# Compassion Comes in Many Forms

## **sometimes it feels like a warm blanket**

Through the generosity of our own staff members Employees That Care was able to purchase a blanket warmer for SBS. The new blanket warmer provides our patients at SBS with the comfort of a warm blanket when they need it the most. The ETC Committee would like to thank the 340 staff members who are currently supporting ETC. With ETC it is all about joining together to make a difference.

Several members of the ETC Committee wrapped themselves in warm blankets and imaged what it means to our patients when one of the staff members of SBS is able to provide this simple but very comforting gesture. For current ETC members we say “thank you” and to all future ETC members we promise that the next project will touch your hearts and make you proud to have joined your fellow staff as an ETC member.
