

Good morning all

The events around COVID-19 continue to rapidly change and want to provide update as some new restrictions for visitors and patient support people for the hospital and SBS. (Nursing Home at Epione has more restrictive policy, so if will be travelling there or other nursing home questions do connect directly with them).

#### UPDATES for Visitors/Patients/Patient Support People

- Patient support person and visitor restrictions posted yesterday (internally, Facebook and Website)
  - o Only “Healthy Visitors”—no cough, fever or sore throat in last 14 days
  - o Only one visitor age 16 or older per patient
  - o Patients with prescheduled appointments that are not feeling well to call ahead
  - o Continued with Patients presenting for services that are not feeling well to request mask at front desks

- Other Community Updates

- o No confirmed COVID-19 cases in Grant County
- o Reminder State of Wisconsin has cancelled all schools starting no later than This Wednesday thru April 6th

Again we will try to provide regular updates with validated information as we receive. Much more to come as this situation seem to be changing hourly.

Thank you for all you do!
